In the midst of a violent night engagement, the fire of an enemy seriously wounded Lieutenant Commander McCandless and rendered him unconscious, killed or wounded the admiral in command, his staff, the Captain of the ship, the navigator, and all other personnel on the navigating and signal bridges. He assumed command of the ship and ordered her course and gunfire against an overwhelmingly powerful force. With his superiors in other vessels unaware of the loss of their admiral, Lieutenant Commander McCandless boldly continued to engage the enemy and to lead the following vessels to a great victory. Largely through his brilliant seamanship and great courage, *San Francisco* was brought back to port, saved to fight again in the service of her country.
 - Warrant Machinist Donald Kirby Ross received a Medal of Honor for distinguished conduct in the line of his profession, extraordinary courage and disregard of his own life during the attack on the Fleet in Pearl Harbor, by Japanese forces on 7 December 1941. When his station in the forward dynamo room of the USS *Nevada* (BB-36) became almost indefensible due to smoke, steam, and heat, Ross forced his men to leave that station and performed all the duties himself until blinded and unconscious. Upon being rescued and resuscitated, he returned and secured the forward dynamo room and proceeded to the after dynamo room where he was later again rendered unconscious by exhaustion.
 - Quartermaster Frank Monroe Upton received a Medal of Honor for extraordinary heroism following internal explosion of the FLORENCE "H", on 17 April 1918. The sea in the vicinity of wreckage was covered by a mass of boxes of smokeless powder, which were repeatedly exploding. Quartermaster Frank M. Upton, of the USS *Stewart*, plunged overboard to rescue a survivor who was surrounded by powder boxes and too exhausted to help himself. Fully realizing the danger from continual explosion of similar powder boxes in the vicinity, he risked his life to save the life of this man.

 - The first USS *Texas* (1892) was laid down by Norfolk Naval Ship Yard, on 1 June, 1889, launched 28 January 1892 and commissioned 15 August 1895. She was decommissioned 27 January, 1896 and recommissioned 20 July 1896. Decommissioned two more times by 1911 and renamed *San Marcos* on 16 February 1911. She was sunk as a target off Tangier Island, Maryland, 22 March 1911, by the battleship *New Hampshire* (BB-25).
 - The second USS *Texas* (BB-35), 1914-1948, a 27,000-ton *New York*-class battleship built at Newport News, Virginia, was commissioned in March 1914. In May, she steamed to Vera Cruz to support the occupation of that Mexican city. Regular operations with the Atlantic Fleet began in mid-year and continued to January 1918. She then crossed the ocean to join the Grand Fleet in the North Sea, where she remained to the end of the First World War. *Texas* returned to the United States in late December 1918 and again took up her duties with the Atlantic Fleet. Reassigned to the Pacific Fleet in mid-1919, *Texas* came back to the Atlantic in 1924, when she again visited Europe on a training cruise. The ship received new oil-fired boilers and many improvements to her combat systems in a major modernization that began in 1925. With her appearance transformed, *Texas*' operations alternated between the Atlantic and the Pacific until 1931, when her base was shifted to California. When the second World War began in September 1939, she joined other Atlantic Squadron ships in maintaining a Neutrality Patrol, an activity that became increasingly warlike when the U.S. Navy began convoying western Atlantic shipping in 1941. The next year, with the nation now formally at war, *Texas* escorted troops and supplies to Panama, West Africa and the British Isles. After an overhaul, *Texas* went to the Pacific, arriving in the war zone in time to take part in the February 1945 Iwo Jima invasion. From late March to late May, she operated off Okinawa, firing her guns against Japanese positions and helping to fight off suicide plane attacks. *Texas* was preparing for the invasion of Japan when the war ended in August 1945. She left the Western Pacific in late September and spent the next three months transporting veterans home. Returning to the Atlantic coast in February 1946, *Texas* was inactive until April 1948, when she was placed out of commission and turned over to the State of Texas. She has been maintained as a memorial at San Jacinto ever since.

Texas Data Points

- Texas is proud to be home to 70 Medal of Honor recipients that span from the Civil War to the Vietnam War:
 - Hospital Corpsman John Edward Kilmer received a Medal of Honor for conspicuous gallantry and intrepidity at the risk of his life above and beyond the call of duty as a Medical Corpsman attached to Company H, Third Battalion, Seventh Marines, FIRST Marine Division (Reinforced), in action against enemy aggressor forces in Korea, on 13 August 1952. With his company engaged in defending a vitally important hill position during an assault by large concentrations of hostile troops, Hospital Corpsman Kilmer repeatedly braved intense enemy mortar, artillery, and sniper fire to move from one position to another, administering aid to the wounded and expediting their evacuation. Painfully wounded himself when struck by mortar fragments while moving to the aid of a casualty, he persisted in his efforts and inched his way to the side of the stricken Marine through a hail of enemy shells falling around him. Undaunted by the devastating hostile fire, he skillfully administered first aid to his comrade and, as another mounting barrage of enemy fire shattered the immediate area, unhesitatingly, shielded the wounded man with his body. Mortally wounded by flying shrapnel while carrying out this heroic action, Hospital Corpsman Kilmer, served to inspire all who observed him. He gallantly gave his life for another.
 - Seaman First Class Johnnie David Hutchins received a Medal of Honor for extraordinary heroism and conspicuous valor above and beyond the call of duty while serving on board a Landing Ship Tank (LST-473), during the assault on Lae, New Guinea, 4 September 1943. As the ship on which Seaman First Class Hutchins was stationed, approached the enemy-occupied beach under a hail of fire from Japanese shore batteries, a hostile torpedo pierced the surf and bore down upon the vessel. In the tense split seconds before the helmsman could steer clear of the threatening missile, a bomb struck the pilot house, dislodged him from his station, and left the stricken ship helplessly exposed. Fully aware of the situation, Seaman First Class Hutchins, although mortally wounded by the shattering explosion, grasped the wheel and maneuvered the vessel clear of the advancing torpedo. Still clinging to the helm, he succumbed to his injuries, He gallantly gave his life in the service of his country.
 - Machinist First Class George Frederick Phillips received a Medal of Honor for extraordinary heroism and uncommon valor in action in connection with the sinking of the USS *Merrimac* at the entrance to the harbor of Santiago de Cuba 2 June 1898. Despite heavy fire from the Spanish shore batteries, Machinist First Class Phillips displayed extraordinary heroism throughout this operation.
