Pennsylvania Data Points

- Four ships have borne the name USS *Pennsylvania* including:
 - The first USS *Pennsylvania* (1837-1861), was a 120-gun ship of the line, built at the Philadelphia Navy Yard. This ship was the largest of the U.S. Navy's sailing warships and was authorized in 1816, laid down some six years later and spent a decade and a half on the shipways. *Pennsylvania* was finally commissioned during the final months of 1837 and, at year's end, undertook her only sea voyage, a trip from Delaware Bay to Chesapeake Bay. Decommissioned after arrival at the Gosport Navy Yard, she began a long career as a receiving ship. On 20 April 1861, as Confederate forces threatened the Norfolk Navy Yard, USS *Pennsylvania* was burned to the waterline to prevent capture. Her wreck was later salvaged and broken up.
 - The second USS *Pennsylvania* (ACR-4), also referred to as "Armored Cruiser No. 4", and later renamed *Pittsburgh* and numbered CA-4, was a United States Navy armored cruiser, the lead ship of her class. She was laid down on 7 August 1901 by William Cramp and Sons and commissioned on 9 March 1905.
 - The third USS *Pennsylvania* (BB-38, originally Battleship # 38), 1916-1948, was lead ship of a class of two 31,400-ton battleships. Commissioned in June 1916, she served as the Atlantic Fleet's flagship into the early "Twenties". From June 1929 to May 1931, she received an extensive modernization at the Philadelphia Navy Yard. When Japan attacked on 7 December 1941, the *Pennsylvania*, the flagship of the United States Fleet, was in drydock at the Pearl Harbor Navy Yard. Her relatively light damage was repaired over the next few months, and she operated along the U.S. west coast and off of Hawaii until October 1942. In January 1945, she took part in the Lingayen Gulf invasion. Freshly returned to the combat zone after another overhaul, she was seriously damaged by a Japanese aerial torpedo off Okinawa on 12 August 1945. Too old for retention in the post-war fleet, the *Pennsylvania* was repaired only enough to fit her for target duty. She served in that capacity during the July 1946 Bikini atomic bomb tests. Subsequently moored at Kwajalein for studies of residual radioactivity, USS *Pennsylvania* was scuttled at sea on 19 February 1948.
 - The fourth USS *Pennsylvania* (SSBN-735) is the tenth ship in the *Ohio* class and the first submarine in the Navy to bear the name of the state. She was launched during a ceremony at Electric Boat Division of General Dynamics in Groton, CT. in April 1988. On 17 October, 2002, the USS *Pennsylvania* pulled into a new homeport of Bangor, Washington, after about 80 days transit from Naval Submarine Base Kings Bay, Ga. She is the first Trident submarine to change homeports to Bangor in more than 15 years.

Pennsylvania Data Points

- Pennsylvania is proud to be home to 378 Medal of Honor recipients that span from the Civil War to the Vietnam War:
 - Chief Boatswain Edwin Joseph Hill received a Medal of Honor for distinguished conduct in the line of his profession, extraordinary courage, and disregard of his own safety during the attack on the Fleet in Pearl Harbor by Japanese forces on 7 December 1941. During the height of the bombing, Chief Boatswain Hill led his men of the USS *Nevada* to the quays, cast off the lines and swam back to his ship. Later, while attempting to let go of the anchors, he was blown overboard and killed by the explosion of several bombs.
 - Machinist's Mate William Russell Huber received a Medal of Honor for extraordinary heroism in the line of his profession on 11 June 1928, after a boiler accident on the USS *Bruce*. Immediately on becoming aware of the accident, Huber entered the steam-filled fire room and at grave risk to his life succeeded by almost superhuman efforts in carrying Charles H. Byran to safety. Although he received severe and dangerous burns around the arms and neck, he offered further assistance. The great courage, grit, and determination displayed by Machinist's Mate Huber on this occasion characterized conduct far above and beyond the call of duty.
 - Chief Gunner's Mate Frank William Crilley received a Medal of Honor for extraordinary heroism, going above and beyond the call of duty during the diving operations in connection with the sinking of the USS *F-4* with all on board, as a result of loss of depth control, which occurred off Honolulu on 25 March 1915. On 17 April 1915, William F. Loughman, chief Gunner's Mate, United States Navy, had descended to the wreck and upon starting his ascent, had his lifeline and air hose so badly fouled that he was unable to free himself and could neither ascend nor descend. Realizing the desperate case of his comrade, Crilley volunteered to go to his aid, immediately donning a diving suit and descended. After a lapse of time of two hours and 11 minutes, Crilley was brought to the surface, untangling the snarl of lines and clearing Loughman so that he was brought, still alive, to the surface.

****Please note that with more than 10% of the total Medals of Honor awards ever awarded, Pennsylvania is second only to New York for most Medal of Honor recipients.**

New York Data Points

- New York is proud to be home to 663 Medal of Honor recipients that span from the Civil War to the War in Afghanistan:
 - Coxswain William McKnight, received his Medal of Honor for extraordinary heroism in action, serving as Captain of a gun on board the USS *Varuna* during the attacks on Forts Jackson and St. Philip, Louisiana. During this action at extremely close range, while his ship was under furious fire and was twice rammed by the rebel ship *Morgan*, McKnight remained steadfast at his gun throughout the thickest of the fight and was instrumental in inflicting damage on the enemy until the *Varuna*, so badly damaged that she was forced to beach, was finally sunk.
 - Coxswain John McCloy, received his first Medal of Honor for extraordinary heroism in action while serving with the detachment from the USS *Newark*, fighting with the relief expedition of the Allied forces in China, 13, 20, 21, and 22 June 1900. During this period and in the presence of the enemy, Coxswain McCloy distinguished himself by meritorious conduct. He received his second Medal of Honor as a Chief Boatswain's Mate, for heroism in leading three picket launches along Vera Cruz sea front, drawing Mexican fire and enabling cruisers to save our men on shore, 22 April 1914. Though wounded, Chief Boatswain's Mate McCloy gallantly remained at his post
 - Lieutenant Michael Patrick Murphy, received his Medal of Honor posthumously for conspicuous gallantry and intrepidity at the risk of his life above and beyond the call of duty as a member of SEAL Deliver Vehicle Team ONE and the leader of a special reconnaissance element with Naval Special Warfare Task Unit Afghanistan on 27 and 28 June 2005. While leading a mission to locate a high-level anti-coalition militia leader, Lieutenant Murphy demonstrated extraordinary heroism in the face of grave danger. Operating in an extremely rugged enemy-controlled area, Lieutenant Murphy's team was discovered by anti-coalition militia sympathizers, who revealed their position to Taliban fighters. As a result, between 30 and 40 enemy fighters besieged his four-member team. When the primary communicator fell mortally wounded, Lieutenant Murphy repeatedly attempted to call for assistance for his beleaguered teammates. Realizing the impossibility of communicating in the extreme terrain, and in the face of almost certain death, he fought his way into open terrain to gain a better position to transmit a call. This deliberate, heroic act deprived him of cover, exposing him to direct enemy fire. Finally achieving contact with his headquarters, Lieutenant Murphy maintained his exposed position while he provided his location and requested immediate support for his team. In his final act of bravery, he continued to engage the enemy until he was mortally wounded, gallantly giving his life for his country and for the cause of freedom. By his selfless leadership, courageous actions, and extraordinary devotion to duty, Lieutenant Murphy reflected great credit upon himself and upheld the highest traditions of the United States Naval Service.

- Three ships have borne the name USS *West Virginia* including:
 - The first USS *West Virginia* (Armored Cruiser # 5, later CA-5), 1905-1930, was a 13,680 ton *Pennsylvania* class armored cruiser, and built at Newport News, Virginia. Commissioned in February 1905, she operated with the Atlantic Fleet until the end of September 1906, then left the East Coast for the Far East. *West Virginia* served in Asiatic waters until returning to the U.S. in 1908 to become part of the Pacific Fleet. In addition to serving off the U.S. West Coast, the cruiser operated in the Hawaiian Islands area and off Mexico. During the mid-1910s she was in reserve at the Puget Sound Navy Yard, Bremerton, Washington, but returned to active status in 1916 for duty off Mexico. *West Virginia* was renamed *Huntington* in November of that year, freeing her "state" name for a new battleship. In March 1930, after being laid up for nearly a decade, USS *Huntington* was stricken from the Navy list. She was sold for scrapping in August 1930.
 - The second USS *West Virginia* (BB-48), 1923-1959 is a 32,600-ton *Colorado* class battleship built at Newport News, Virginia, and commissioned in December 1923. She was the last battleship completed for the United States Navy for nearly two decades. During the 1920s and 1930s, she served in the United States Fleet, taking part in "Fleet Problems" and other exercises as part of the continuing effort to develop tactics and maintain the Navy's combat readiness. *West Virginia's* base was moved to Pearl Harbor in 1940, and she was there on 7 December 1941, when the Japanese attacked. In that raid, the battleship was hit by two bombs and at least seven torpedoes, which blew huge holes in her port side. Skillful damage control saved her from capsizing, but she quickly sank to the harbor bottom. Salvaged and given temporary repairs at the Pearl Harbor Navy Yard, in April 1943, *West Virginia* steamed to the West Coast for final repair at the Puget Sound Navy Yard. She emerged from the shipyard in July 1944 completely changed in appearance, with a wider hull, and massively improved anti-aircraft gun battery. On 1 April 1945, while off Okinawa, she was hit by a Japanese Kamikaze plane but was able to remain in action, continuing her bombardment duties there into June. She participated in Operation "Magic Carpet" during the last part of 1945, bringing home veterans of the Pacific war. Inactive after early 1946, she was decommissioned in January 1947. Following twelve years in the Pacific Reserve Fleet, USS *West Virginia* was sold for scrapping in August 1959.

West Virginia Data Points

- The third USS *West Virginia* (SSBN 736) is an *Ohio* class ballistic missile submarine and is the third U.S. Navy ship to be named for West Virginia, and the 11th of the 18 *Ohio* class submarines. She has been in commission since 1990. The focal point of the emblem is the outline of the 35th state in the Union while the silent mountaineer represents the first West Virginia pioneers who endured unimaginable horrors in grappling their proud mountainous lands from the French and their Indian allies. The traditional long rifle has been replaced with King Neptune's three-pronged spear, the Trident, the nautical symbol of our nation's third generation (after Polaris and Poseidon) Strategic Submerged Launched Ballistic Missile Program.
- West Virginia is proud to be home to 44 Medal of Honor recipients that span from the Civil War to the Vietnam War:
 - Seaman Lawrence Clinton Sinnett received a Medal of Honor for extraordinary heroism in the line of his profession, on board the USS *Florida* during the seizure of Vera Cruz, Mexico, 21 April 1914.
 - Chief Gunner Robert Edward Cox received a Medal of Honor for extraordinary heroism while serving on the USS *Missouri* 13 April, 1904. While at target practice off Pensacola, Florida., an accident occurred in the *Missouri* whereby the lives of five officers and 28 men were lost. The ship was in imminent danger of destruction by explosion, and the prompt action of Chief Gunner Cox and two Gunner's Mates caused the fire to be brought under control, and the loss of the *Missouri*, together with her crew, was averted.
 - Ensign Hugh Carroll Frazer received a Medal of Honor for extraordinary heroism in battle during the engagement of Vera Cruz, Mexico, 22 April 1914. During this engagement, Ensign Frazer ran forward to rescue a wounded man, exposing himself to hostile fire and that of his own men. Having accomplished the mission, he returned at once to his position in line.
