3. Background

a. Mentoring is an age-old tool used to facilitate the growth and development of young individuals separated from immediate family members, facing challenging or difficult times and seeking professional guidance and progression. Mentoring is also a very useful tool in the development of business and trade professionals in today's demanding work environment. All Navy personnel assigned to NRD New York will have a mentor assigned (or designated) to assist in their professional and personal growth.

b. NRD New York believes in assisting and inspiring the personal, professional and educational growth and development of all Sailors through a structured exchange of ideas, dialogue and goal-setting between the protégé and mentor. The success of this program is dependent upon the proactive support of all hands.

4. Action. All personnel will either personally select, or be assigned, a mentor within 45 days of reporting aboard. The 45-day window will allow newly reported personnel sufficient time to meet and select a mentor from their division or other suitable member of a local command. During the 45-day period, newly reporting personnel are encouraged to refer to their immediate chain of command and/or their "reporting aboard"

sponsor for career or personnel guidance and assistance. If a newly reporting member is unable to select a mentor at the end of the 45-day period, the Leading Petty Officer or the Leading Chief Petty Officer will automatically be assigned as the mentor until protégé is assigned a mentor. All members currently assigned to the command will have a mentor selected and designated within 30 days of the release of this instruction.
