NAVY RESERVE MEDICAL RESPONSIBILITIES

America's Navy Reserve Hospital Corpsmen not only assist physicians and dentists but rise to the challenge of rendering emergency medical care in a variety of settings ranging from state-of-the-art medical facilities, to duty with the Marine Corps, to disaster relief.

If you join the Navy Reserve medical community, responsibilities may include:

- Helping prevent and treat diseases and injuries
- Rendering emergency medical treatment
- Administering medications, including injections
- Transporting the sick and injured
- Taking and processing X-rays and operating X-ray equipment
- Serving as an operating room technician for general and specialized surgery
- Operating sophisticated medical diagnostic treatment equipment
- Specializing in a number of fields, including radiology, search and rescue, and optical and preventive medicine
- Assisting in providing dental care to Navy personnel and their families
- Assisting in oral surgery
- Constructing dental crowns and bridges

NAVY RESERVE HEALTHCARE TEAM

Whether you are already experienced, or just beginning your healthcare career, the Navy Reserve can help you achieve the level of success you desire.

Serving in the Navy Reserve is a chance to have it all. You'll receive the same training and opportunities as your active duty counterparts. You'll meet the same high standards and qualifications as well. You'll be a totally integrated member of the U.S. Navy and as such, you'll provide the vital skills necessary to maintain national security and to support our nation's interests worldwide by providing the best possible health care to Sailors, Marines and their families.

As a Navy Reservist, you'll not only be serving your country, you'll be enhancing your own civilian career. The Navy will work with you so you can be flexible in scheduling your Reserve time. It really is the best of both worlds. You serve your country—you stay true to yourself.
